X.X   Toggling "Passenger Air Bag Off" On or Off

X.X.X   In order to toggle the "Passenger Air Bag" function On or Off, do the following:
1. Make sure the Engine is On.
2. Pull the Handbrake on.
3. Go to *Settings*>*Vehicle Functions*>*Passenger Air Bag Off*>.

4. Tuggle the switch to the right (**On**) or to the left (**Off**) on the "**Passenger Air Bag Off**". Then...
5. A pop-up message will appear: "**Please press the brake pedal for 3 seconds**". Do that, then you'll get...

6. "**Operation successful!**".
